

## Typical Applications:

- 1) Marine lighting (e.g. luxury yachts / ocean liners)
- 2) Aerospace grade interior lighting
- 3) High quality lighting with compact fixture (e.g. high speed train)
- 4) Exhibition lighting in museums, art galleries & antique displays
- 5) Highlights or visual enhancements in public/commercial areas
- 6) Illumination of hotel lobbies, reception areas & VIP rooms
- 7) Illumination of private mansions & villas

## Features:

- 1) Wide operation voltage design suitable for interior lighting of marine applications, airplanes & high speed trains).
- 2) Compact size and streamline appearance design enriches better lighting quality within limited space
- 3) Adjustable fixture better fits various needs for different environments/occasions
- 4) Optimum optical design generates high efficiency light output without glares or flickering.
- 5) Super thin heat dissipation module & super power saving technologies
- 6) High illumination efficiency & long lifetime; accomplishing energy-saving & carbon-reducing effectively.
- 7) High CRI value, typically >70

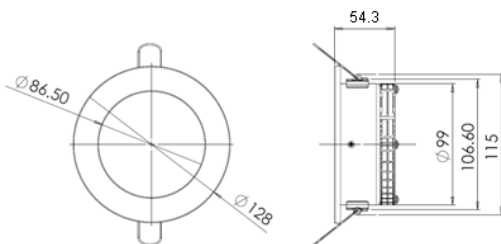

## Specifications:

**Color Options:** Cool White/Neutral White/Warm White

Product	Model No	Total Power Consumption (W)	Im* (typ)	CRI* (typ)	View Angle	Oper. Voltage (VDC)	Ambient temp. (°C)	Dimen. (mm) Dia ./D	Footprint (mm) Dia./D	Wgt. (g)
4-inch Down Light	SP0300-3	8.3	610	≥ 70	90	10~30	-20~45	φ128/ 54.3	φ118 ~123/ 70	435

\* Illumination , power consumption and CRI values vary w/ LED chips & viewing angles

## Dimension (SP0300-3):

## TOPUNION GLOBALTEK INC.

2F, No. 1-8, Li-Hsin Rd., Hsinchu Science Park;  
Hsinchu, Taiwan; 30078, ROC
